## Peer Review Form: Group Presentation Evaluation

**Presentation Title:** \_\_\_\_\_

**Group Number:** \_\_\_\_\_

### Instructions:

Please evaluate the presentation you just watched. For each criterion, assign a score between **1 (Poor)** and **5 (Excellent)**. Be honest and constructive in your scoring. You will not evaluate your own group.

#### 1. Clarity of Presentation (1-5 points)

- Was the presentation easy to follow and understand?
- Were the key points clearly communicated?

**Score:** \_\_\_\_\_

## **2. Technical Rigor (1-5 points)**

- Did the group apply appropriate machine learning models for the problem?
- Was their analysis sound and technically correct?

**Score:** \_\_\_\_\_

## **3. Creativity and Innovation (1-4 points)**

- Did the group demonstrate creativity in their approach?
- Did they try innovative methods or models beyond basic techniques?

**Score:** \_\_\_\_\_

#### **4. Visual Aids (1-3 points)**

- Were the visuals (e.g., graphs, charts, and tables) relevant and helpful?
- Did the visuals enhance your understanding of their findings?

**Score:** \_\_\_\_\_

#### **5. Handling of Questions (1-3 points)**

- How well did the group answer questions from the audience?
- Were they confident and clear in their responses?

**Score:** \_\_\_\_\_

**6. Additional Comments (Optional)**

- Any additional feedback for the group:

**Total Score (Out of 20):** \_\_\_\_\_

**Submission:**
